be with nature

With honor, we present a full new range of our Spring Summer collections for the year 2019.

Being with nature is empowering to all, especially to the artisans who have worked tirelessly in our production centers to create the unique products featured in this catalogue. These products reflect the natural beauty of Bangladesh and tell the stories of our artisans.

Just like nature, our artisans have used ingenious ways of utilizing raw materials to show their skills. They have also recycled, upcycled, and reused the raw materials that would otherwise go to waste. We hope you would feel the same delight in looking through this catalogue as our artisans have while making the products.

Best regards,
Prokritee Team

our work

Natural materials

The name of our company is Prokritee which means nature in Bengali. For our products we use renewable sources of materials, such as recycled sari, jute, silk and paper as well as natural fibres and leaves. All coloring is done with AZO free and natural dyes.

Fair wages

Our vision is that all women in Bangladesh can live in dignity and are valued as contributing members of the society. Our focus is to develop the social and economic capacity of these women by creating productive employment opportunities and sustainable linkages to world markets. Giving them fair wages and good working conditions are the base.

From design to shipping

Apart from regular product design and development we have a “Packing and Export Shipping” section in Dhaka. This section deals with quality checking, packaging, documentation and shipping for export. Our producers are committed to produce right quality products on time. We ensure your customise product design and smooth shipments.

< Yasmin Begum, artisan Bonoful

Our accessories and personal care products are vibrant with natural colors and reflect traditional designs.
